Subject: FW: Oregon Ocean Acidification 303(d) Impaired Waters List

Tom - **There is a briefing for the RA now scheduled for next Wednesday (the 16th) at noon eastern.** My understanding is R10 had been planning to a briefing for the RA similar to the one John and Deborah received. I.e., it would explain the Region's technical conclusions about OA [Attorney Client / Deliberative Process / Ex. 5] Chris Hunter has been invited, but not any OW management. As you'll recall, John thought the briefing was well done in terms of presenting the Region's preferred option, but there will likely be interest in teasing out other options. Let's discuss on Monday whether others in OW should be invited to the RA briefing. We will get more info on the materials the Region plans to use. Thanks. Jim

Hi Jim,

Here is the R10 RA meeting I mentioned on Ocean Acidification next week. Currently, staff from WB are invited, but no OWOW management. I'll be checking in with Jill later today about the briefing materials and expectations for the briefing. You can see from the description that this was originally planned to happen much earlier and I'm not sure if they are still planning a second briefing or not.
